

Your veterinary team can be affected by COVID-19 too!

1

Please be mindful that the self-isolation requirements may affect your veterinary clinic as well!

2

Your clinic may need to prioritise the most urgent cases ahead of routine appointments, due to reduced staff capacity.

3

Please be understanding that your veterinary team will be doing their utmost to maintain the wellbeing of your animals during this time.

4

Please do not put your veterinary staff at risk – if you are self-isolating, or symptomatic with COVID-19, delay non-urgent veterinary visits.

5

If you are self-isolating or symptomatic, and your animal needs urgent veterinary attention, please call ahead and inform the clinic – they can work with you to make an appropriate plan.

6

If you become symptomatic after recently attending your veterinary clinic, please notify them as soon as possible.
